

NORTHWEST TRADITIONAL ARCHERS *Expo*

SATURDAY, FEBRUARY 14th

KEYNOTE SPEAKER **JOSHUA MILLER**

Joshua grew up in the small town of Neelyville, Missouri where his desire for competition was born early on through sports. Being able to utilize what he had available and a desire to accomplish whatever he set his mind to has always been a key factor in his successes as a youth. From shooting on a leaning basketball goal with a dirt patch for a court or throwing a baseball through an old car tire in the country was all he needed to reach his goals. Nine years ago, Joshua picked up traditional archery primarily through hunting whitetail deer and later discovered that there was competitive side to it. Being completely consumed and infatuated with learning everything he could about traditional archery was the foundation and building blocks to his journey.

Winning his first local 3d shoot was all it took to spark a fire that combusted into something that eventually led to what he has never wanted more in his life: to represent our country and shoot for team USA.

Joshua, now a husband and father of three, enjoys spending time with his family and giving his kids every opportunity to try anything and everything that their hearts desire. Joshua currently serves our nation's veterans as a specialty nurse in Poplar Bluff, Missouri at the John J. Pershing VA Medical Center.
